## Objective and Introduction

---

I am a bilingual (English/French) Computer Science student, looking to obtain employment in a technical role, in the National Capital Region, in the computer science field. I am a dependable public speaker who works well in groups and is great at multitasking.

## Skills

---

- Developed webpages using HTML, CSS, JavaScript, and the principles of responsive web design (VS Code, Notepad, Notepad++).
- Coded applications and programs with Java (Eclipse, IntelliJ).
- Assembled and disassembled of a Dell desktop computer (Intel, ATX motherboard).
- Installed Windows 10/11 and Linux (Ubuntu).
- Created and used BATCH files on Windows 10/11.
- Utilized GUI and command line interface (PowerShell, Bash).
- Installed, troubleshooted, and documented problems with networks.
- Organized statistical data with Excel.
- Knowledgeable about colour theory and how to use and apply it.

## Interests and Activities

---

- Independent Game Development: An ongoing interest in creating video games, driven by a passion for the projects I create. Current projects include a 2d adventure RPG made in java, and a mystery visual novel made in Ren'Py.
- Website Development: An interest in creating and designing unique and creative websites, utilizing mobile-first design, colour theory and graphics to make them compelling. My projects include a website for a fictional business, and a personal website that is being continuously improved and added to.
- Visual Arts: A longtime enthusiasm for creating illustrations, both traditional and digital, as well as learning design principles. Some experience with 3d modelling.
- Writing: A passion for developing long-term projects related to creative writing and analysis.

## Achievements

---

2024                      Computer Science Award - D'Arcy McGee                      Gatineau, Quebec

Worked diligently throughout my final year and graduated with an overall average of 98 in Computer Science, where we learned the basics of Java. This earned me an award at graduation.

2024                      Cégep Heritage Honour Roll                      Gatineau, Quebec

Completed my first semester of Computer Science with an average of 89%.

## Education

---

2024-2027      Cegep Heritage College                      Gatineau, Quebec

*Computer Science*

- 3-year advanced diploma (DEC)
- The three-year Computer Science co-op program prepares students for a challenging career in software development. The program specializes in secure web application development built on an object-oriented modeling approach.

2019-2024              D'Arcy McGee Highschool                      Gatineau, Quebec

*Quebec Secondary School Diploma*

## Experience

---

2023-2024              Mean Girls: The Musical Jr                      Gatineau, Quebec

*Ensemble, French Teacher, Marymount Mathlete*

- Successfully collaborated and worked with a large group of people to deliver a production.

2022-2023              Shrek: The Musical Jr                      Gatineau, Quebec

*Ensemble, Mad Hatter*

- Successfully collaborated and worked with a large group of people to deliver a production.

2021-2024              DMHS Pride Club                      Gatineau, Quebec

- Participated in and helped organize various events such as bake sales and hot chocolate stands.
